

Tatsiana

Hello, I'm Tatsiana, a highly experienced software engineer with over 10 years of professional expertise in .Net development, Databases and JavaScript. For the past five years, my focus has been on working with high-performance microservices. My proficiency extends to both Backend and Frontend technologies. Moreover, I possess expertise in various databases, notably MS SQL Server, and have hands-on experience with multiple AWS services such as DynamoDb, ElastiCache (Redis), and Aurora PostgreSQL.
